

DARSHANA JAIN

QA / SOFTWARE DEVELOPER

Pune, Maharashtra | +91-7627042142 | jjaindarshana@gmail.com

LinkedIn: linkedin.com/in/darshana-jain | GitHub: darshujain.github.io/darshana-jain.github

PROFESSIONAL SUMMARY

Software Developer with hands-on experience in frontend, backend, API integration, database operations, and software testing. Proficient in React.js, JavaScript, Node.js/Express.js, Python/FastAPI, SQL/NoSQL databases, Postman, and Jest. Experienced in project development, API validation, functional testing, debugging, and CI/CD workflows. Strong team player accustomed to collaborating in Agile environments.

TECHNICAL SKILLS

- **QA & Testing:** API Testing (Postman), Jest, Test Execution, Debugging, UI Validation, CRUD & API Validation
- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js, Python, FastAPI, REST APIs
- **Databases:** SQL (MySQL), NoSQL (MongoDB), Vector Databases
- **Cloud & DevOps:** AWS, Google Cloud, Azure (EC2, S3, Lambda, DynamoDB, API Gateway, ALB), GitHub Actions
- **Tools & AI:** Git/GitHub, Postman, Agile Methodology, Cursor, Claude (AI Development & MCP concepts)

PROJECTS

1. NextGen Devs – Career Training Platform – October 2026

- **Overview:** Built NextGen Devs, a multi-page career-training website for Full Stack Development and QA Automation learners.
- **Features:** Developed course catalog, instructors, mentorship, practice, resources and mock-interview booking pages using React Router.
- **UI/UX:** Designed a responsive, mobile-first UI with Tailwind CSS, light/dark theming, testimonials and a hiring-company carousel.
- **Technologies:** React.js, TypeScript, React Router, Tailwind CSS, Vite

2. Gesture Controller – Voice & Motion Mobile App – August 2026

- **Overview:** Built a hands-free Android app that responds to voice commands and device motion gestures.
- **Voice Control:** Implemented speech-recognition commands through a custom useVoiceCommands hook with start/stop listening states.
- **Motion Gestures:** Detected phone shake from live accelerometer data via the Capacitor Motion API, with real-time status and toast feedback.
- **Technologies:** Ionic React, TypeScript, Capacitor (Android, Motion), React Router

3. ORIANA Project Tracking — Tech Potato Software | July 2024 – June 2025

- **Role & Impact:** Worked as part of the core Software Engineering Team involved in end-to-end product development activities.
- **Development:** Contributed directly to multi-module development and successful product delivery.
- **Testing & QA:** Executed functional testing and flow validation across backend API endpoints and frontend components.
- **Debugging:** Participated in application debugging, issue resolution, and release validation.
- **Technologies:** JavaScript, React.js, Node.js, Express.js, REST APIs, Postman, Git

4. ClipX – Video Streaming & Sharing Platform — August 2025

- **Overview:** Developed ClipX, a real-time video streaming and media sharing platform using React.js and a Node.js backend.
- **Streaming & Real-time:** Implemented video upload, streaming processing, and real-time playback controls using WebSockets.
- **Authentication:** Added secure user authentication, profile management, and video access permissions using JWT.
- **UI/UX:** Designed a responsive UI using Tailwind CSS optimized for video rendering and mobile devices.
- **Storage & Cloud:** Integrated cloud/database storage for media files, metadata management, and user interaction logs.
- **Deployment:** Tested, debugged, and deployed the application to a cloud environment for live demonstration.
- **Technologies:** React.js, Node.js, Express.js, WebSockets, Tailwind CSS, MongoDB/MySQL, JWT

5. Chat Application — August 2025

- **Overview:** Developed a real-time chat application with Socket.io integration for instant messaging and live updates.
- **Communication:** Implemented WebSocket communication with Socket.io for live messaging and instant updates.
- **Authentication:** Added authentication and secure login using JWT (JSON Web Token).
- **UI/UX:** Designed responsive UI using Tailwind CSS for mobile-friendly experience.
- **Database:** Integrated MongoDB/MySQL for user data and chat history.
- **Deployment:** Deployed the application on a cloud server for testing and demonstration.
- **Technologies:** React.js, Node.js, Express.js, Socket.io, Tailwind CSS, MongoDB/MySQL, JWT

6. Rapid WhatsApp Clone — July 2025

- **Overview:** Built a WhatsApp-like clone supporting individual and group messaging.
- **Real-time:** Implemented real-time chat using Socket.io and Node.js backend.
- **Features:** Added message status (sent, delivered, seen) and file/image sharing.
- **Authentication:** Integrated authentication and user management using JWT.
- **UI/UX:** Designed a clean, mobile-friendly UI using React.js and Tailwind CSS.
- **Technologies:** React.js, Node.js, Express.js, Socket.io, Tailwind CSS, MongoDB

PROFESSIONAL EXPERIENCE

Tech Potato Software | Junior Associate (July 2025 – Present | Pune, Maharashtra)

- **Development:** Contributed to frontend and backend development using HTML/CSS, JavaScript, Node.js, and Express.js.
- **Database & Testing:** Managed MySQL databases, optimized CRUD queries, and tested API flows for reliability.

Hustlebee Softwares Private Limited | Trainee Engineer Intern (July 2024 – June 2025 | Pune, Maharashtra)

- **Contribution:** Contributed to product development activities and software delivery as part of the engineering team.

EDUCATION

- **B.Tech in Computer Science & Engineering (CGPA: 9.0 / 10)** — Techno India NJR Institute of Technology, Udaipur | 2019 – 2023
- **Higher Secondary (12th Grade) (80.60%)** — Govt. Senior Secondary School, Partapur | 2018 – 2019
- **Secondary School (10th Grade) (71.61%)** — Pioneer Senior Secondary School, Partapur | 2017 – 2018
